# You Make Great Cabinets

## We Protect Your Cabinets

Protect your finish without roll foam

QuikPACK utilizes single face corrugated with a non-abrasive poly liner to protect your cabinets without the additional step of using roll foam.

Works with any cabinet up to 42"

Package and protect your entire product line. The QuikPACK system can be programmed to dispense the exact amount of material needed to cover the entire perimeter of your cabinet.

Reduce Packaging Labor Costs

One QuikPACK station with a two man crew can pack up to 100 cabinets per hour. Preprogrammed sizes speed up the process by eliminating guesswork. The use of an optional bar code scanner allows the QuikPack machine to dispense the correct roll height and material length every time.

Integrates with your Existing System

The QuikPACK System is easily expandable to meet your production requirements. Additional stations are a simple and economical way to meet your growing needs without a large capital investment.

# From This

## Simple Inventory Management

Instead of hundreds of box SKU's for every conceivable size cabinet, you only need to stock QuikPACK material in four different roll heights, and the top and bottom trays.

## 80% Reduction in Warehouse Space

In addition, the QuikPACK material is scored and folds easily to accommodate any height cabinet.

# Ordering Information

## QuikPACK System

### QuikPACK Workstation

The heart of the system is the QuikPACK workstation, which dispenses material from the right size roll and cuts it to the desired length automatically.

### Corner Protectors

Corner protectors come in a variety of sizes and styles to fit any cabinet. Easy to apply and remove, they prevent damage during shipping and assembly to the most vulnerable parts of your cabinet.

- T-430 90° Corner Protector
- T-431 22.5° Corner Protector
- T-432 45° Corner Protector
- T-433 90° Corner Protector, 60mm
- T-434 90° Corner Protector, 60mm, without wings
- T-435 135° Corner Protector

42" Roll

34 1/4" Roll

30" Roll

18" Roll

### Packaging Material Rolls

There are four sizes of QuikPACK rolls available. Each has 250' of material in addition to the non-abrasive poly liner. Rolls are quick and easy to change.
